

**NEWS RELEASE  
FOR IMMEDIATE RELEASE**  
October 28, 2009

The Eastern Pike Regional Police Department is launching a new Community Information Service designed to deliver important and timely information to residents in our area using the latest technology.

This service, created by Nixle, LLC delivers trustworthy and important neighborhood-level public safety and community event notifications by web, e-mail, and cell phone.

Nixle is completely free, simple, and trusted.

Residents of Matamoras Borough and Westfall Township can now take advantage of Nixle! Nixle is a community information service that alerts you to public safety threats and community events via web, e-mail, and cell phone. Sign up at [www.nixle.com](http://www.nixle.com) to register.

Register now and learn more at [www.nixle.com](http://www.nixle.com). Then share this new service with friends and neighbors to spread the word!

We are very excited to have you experience it for yourself.

#### **Quote from police chief/public information officer/city official about benefits to residents**

For now, Westfall and Matamoras residents will be able to receive police-related information and municipal government information via Nixle. Channels providing other kinds of information are expected to be introduced in the future.

Craig Mitnick, the founder and CEO of Nixle, said Nixle differs from current services such as Facebook, MySpace and Twitter, which provide unauthenticated platforms for connections. Nixle solves that problem by providing a single standardized service for consumers to receive immediate and credible neighborhood-level public safety and community information.

"Nixle is a first-of-its-kind tool for communities that need to provide critical information to their residents," said Craig Mitnick, founder and CEO. "When it comes to public safety information, you have to trust the source. Residents of Matamoras and Westfall can rest easy that the local messages they receive are authentic."

#### *About Nixle*

Nixle is a community information service provider built exclusively to provide secure and reliable communications. It is the first authenticated and secure service that connects municipal agencies and community organizations to residents in real time, delivering information to geographically targeted consumers over their cell phones (via text messages), through e-mails and via Web access. Nixle has secured a partnership with Nlets (the International Justice and Public Safety Network), allowing local police departments nationwide to send immediate alerts and advisories. Privately funded Nixle, which has offices in New Jersey and California, is free to all governments, their agencies and organizations, nongovernmental organizations and consumers. For more information, visit [www.nixle.com](http://www.nixle.com).
